

**Businet Workshop**

**to be held at**

**Mechelen University College**

**Friday 28 May 2010**

**Stimulating Curriculum Thinking – Higher Education in the next decade with Professor Ray Land Strathclyde University**

Following the success of Professor Lands Keynote address at the Businet Conference in November he has kindly agreed to follow this up with a working session in which he will be exploring the higher education curriculum as it might evolve over the next 10 years.

The working session is part of Businet's commitment to provide development opportunities for members in the period between conferences.

The target audience for Professor Lands session will include teaching practitioners and education managers.

It is expected that the event will encourage participants to review current curriculum practices and consider the evolving needs of Higher Educational learners in a vocational setting.

The event, which will be hosted by Mechelen University College, will start at 10.00 am and end at 15.00 pm. Businet will meet the costs of this event, so there is no charge to members attending apart from travel and accommodation. Thanks to Mechelen University College for providing the venue.

We will organise accommodation at the 4 star Novotel Mechelen, at a special rate. The Hotel is within walking distance of the conference venue.

**Please find attached a booking form for the event and the Novotel accommodation.**

**Please return the booking form by Monday 10 May to [admin@businet.org.uk](mailto:admin@businet.org.uk).**

If you will require overnight accommodation but do not wish to use the Novotel please note that you will need to make your own arrangements.

Please note there are only a limited number of places available for this event. Places will be allocated on a "first come, first served" basis.
